(1)							
U14 T1 (1)			Ali: 1				
U16 T1 (1)			Ali: 1				
U16 T2 (2)							
U16 T3 (1)							

Actual Burndown Chart

Remarks:

- Most of the tasks are “finished”, but require some tweaking to do and thus those tasks aren’t put down as “completed”
- Refactor and Review is taking longer than expected but most of it is complete. Most likely be finished by the final deliverable
- Nate worked on the project for 8 story points instead of the 6 assigned, good job :)
